

## AM Protect™

AM Protect™ enhances security of the Sensormatic® AM, EAS label. For certain high theft products, AM sensors can be easily identified and removed by shoplifters. AM Protect™ solves this problem by hiding the sensor behind a printed cover label.

The product uses aggressive adhesive applied to cover stock designed to fragment when removal is attempted. This slows a would be thief and draws attention to unwanted activity. Added theft deterrence is provided by a printed warning message.

Visible theft deterrence, a larger adhesive foot print and destructible label features reduce tag defeats and make AM Protect™ ideal for instore labeling on products that are not well suited to source tagging. The product is manufactured with clear film, a standard warning message or custom printing of Company Logos etc.

### PRODUCT SPECIFICATIONS

#### Dimensions

2 3/4" x 1 3/8" Rectangle (70 mm x 35 mm)

#### Material

Tamper evident, destructible cover stock

#### Adhesive

Special high tack for strong adhesion

#### Printing

Clear, Standard and Custom Printed

#### Packaging

500 Labels per roll / 5000 Labels per Case
