

Bottle Guard™

Bottle Guard™ enhances security for the Senormatic AM, EAS labels applied to wine and spirits bottles by applying an over-label on the AM sensor. The product is manufactured in two formats, a round black disk applied on the bottom of bottles to disguise the sensor and a clear rectangular label applied to the side of bottles to make EAS security obvious to shoppers.

Both formats of Bottle Guard™ use aggressive adhesive applied to cover stock designed to fragment when removal is attempted. This slows a would be thief and draws attention to unwanted activity.

PRODUCT SPECIFICATIONS

Dimensions

RECTANGLE - 2 3/4" x 1 3/8" (70 mm x 35 mm)

ROUND - 2 3/8" (31.75 mm)

Material

Tamper evident, destructible cover stock
