

## RFProtect™

### PRODUCT DESCRIPTION

Radio Frequency (RF) security Label applied to certain high theft products may be identified and easily removed by shoplifters. From Dry Goods, Laundry, Baby, Electronics, OTC&HBA products the RFProtect™ incorporates an RF sensor and cover label made with an aggressive adhesive to prevent the removal of the sensor. RFProtect™ is manufactured in clear, or custom printed formats. Advertising copy, security information, logos and other images can be printed on the cover label thus hiding or camouflaging the presence of the sensor and creating a visible deterrent.

Custom Printing and security information, logos, other sizes and images are available upon request.
