

AMProtect+™ cover label enhances security of the Sensormatic® AM, EAS tag, plus seals boxes to prevent product tampering. For certain high theft products, AM sensors can be easily identified and removed by shoplifters. AMProtect+ solves this problem by hiding the sensor behind a printed cover label with the added protection of an anti-tamper seal.

The product uses aggressive adhesive applied to cover stock, designed to fragment when removal is attempted. This slows a would-be thief and draws attention to unwanted activity. Added theft deterrence is provided by a visible warning message and the anti-tamper seal flap is printed with your company logo.

Visible theft deterrence, a larger adhesive footprint and destructible label features reduce tag defeats and make AMProtect+ ideal for instore labeling on products that are not well suited to source tagging. The added value of an anti-tamper seal with a single application delivers exceptional loss prevention value.

## PRODUCT SPECIFICATIONS

### Dimensions

3 1/2" x 1 3/8" Rectangle (89.9 mm x 35 mm)

### Material

Tamper evident, destructible cover stock with added feature of an anti tamper seal

### Adhesive

Special high tack for strong adhesion

### Printing

Clear, Standard and Custom Printed

### Packaging

500 Labels per roll / 5000 Labels per Case

To Order your AMProtect+™ send request to info@csi-labels.com or call toll free 1-866-994-0338

### Features

- Prevents tampering of AM sensors
- Prevents box opening with anti tamper flap
- Printed format deters theft
- Aggressive Adhesive
- Destructible Cover Stock
- Sensormatic 9K1 Tag

### Suggested Applications

- OTC &HBA Products
- Ammunition
- Golf Balls
- Electronics
- Packaged Goods
