

Drop-In™

The Drop-In™ combines an EAS, AM tag with any RF tag for dual technology anti-shoplifting solutions. Retailers and packagers save time and money by inserting one card with two sensors in a single, easy to use format.

Individual AM or RF tags can be produced on a single insertion card. Drop-In™ is ideal for instore and source tagging applications.

PRODUCT SPECIFICATIONS

Dimensions

- 2" x 2.5" Dual
- 2" x .75" AM
- 2" x 2" RF

Material

Card stock coated one side
