

RFProtect™

*Added protection for RF Labels
Visible Deterrents Work*

RFProtect™

Overlay Label

RFProtect™ enhances security of an RF, EAS label. RF labels can be easily removed by shoplifters when applied to the surface of products. RFProtect™ solves this problem by covering the EAS label with a tamper proof, thin, clear, destructible overlay label.

The overlay uses super strong adhesive and is designed to fragment into small pieces if removal is attempted. This slows a thief and draws attention to unwanted activity. The overlay label be printed with a logo or warning message.

Visible theft deterrents and a secure overlay seal with tamper proof label features reduce tag defeats. RFProtect™ labels are applied in-store and source tagged in factories by packagers and product manufacturers.

PRODUCT SPECIFICATIONS

Dimensions

1.75" Square, other sizes also available

Material

Tamper Evident, Destructible Overlay

Adhesive

Special high tack for strong adhesion

Printing

Clear, Standard or Custom Printed

Packaging

1000 Labels per roll /10,000 case
